

Chargeback Handling and Dispute Resolution Policy

Chargebacks occur when customers dispute transactions with issuing banks.

Policy CB-01 – Initial Review

Fraud analysts must verify transaction authorization details before approving a chargeback.

Policy CB-02 – Evidence Collection

Relevant transaction logs, authentication records, and merchant details must be reviewed.

Policy CB-03 – Fraud Confirmation

If a transaction is confirmed as fraudulent, the issuing bank may approve the chargeback.

Policy CB-04 – False Claims

If the transaction was properly authenticated, the chargeback request may be rejected.
